CONFIDENTIAL

Lyle Voorhees

Tree Professionals of Harrisburg
Harrisburg, Pennsylvania

Dear Lyle,

We are pleased to submit this proposal to launch and manage a Google Ads program for Tree Professionals of Harrisburg. Your website, analytics, and tracking infrastructure are live and verified, and your Google Ads account has been created under our Manager Account. The account is ready for activation as soon as we receive your billing details.

This proposal is structured in twelve short sections covering scope, account and billing structure, campaign strategy, what we need from you, timeline, reporting, ownership, fees, and next steps. We have kept each section intentionally brief so that you can read the full document in under fifteen minutes.

If anything is unclear, or if you would like to adjust scope, we welcome a short call at your convenience.

1. Scope of Engagement

Woodward & Guy will design, launch, and manage a paid search program on Google Ads for Tree Professionals of Harrisburg. The engagement covers strategy, account setup, conversion tracking, campaign build, weekly optimization, monthly reporting, and ongoing advisory. Ad media is purchased directly from Google using your credit card; our fees cover the work, not the media. A full breakdown of included services by tier appears in Section 10.

2. What Is Already Built

Everything below is live and verified as of today. These systems require no further action from you and are ready to support the ad campaigns the moment they launch.

- **Website** — live at treeprofessionalsofharrisburg.com, mobile-responsive, fast-loading, with dedicated pages for every service and service area
- **Lead tracking** — every form submission attributed to its traffic source; mobile phone-number clicks captured
- **Lead notifications** — email alert for every lead; customers receive a styled confirmation email after submission
- **Google Analytics 4** — installed, verified, recording pageviews, form submissions, and phone clicks as key events
- **Google Tag Manager** — container installed and published; the hub for Google Ads tags to be added after launch
- **Google Search Console** — verified and indexing; sitemap submitted
- **Google Business Profile** — confirmed active
- **Google Ads account** — created April 21, 2026 under our Manager Account, account ID 753-718-2468, pending billing activation

3. Account and Billing Structure

How the agency relationship works

Woodward & Guy operates a Manager Account — Google's term for a single login that manages multiple client accounts. Your Google Ads account is owned by Tree Professionals of Harrisburg and linked to our Manager Account for administration. We do not share passwords, and you retain Admin access to your own account at all times.

Ownership

Google Ads account 753-718-2468 was created by Woodward & Guy on behalf of Tree Professionals of Harrisburg and is owned by Tree Professionals of Harrisburg. The account is managed under Woodward & Guy's Manager Account 432-245-4246. All campaign data, conversion history, and creative assets belong to Tree Professionals of Harrisburg and remain with Tree Professionals of Harrisburg regardless of the status of this engagement.

Billing

Ad media is billed directly by Google to a credit card placed on your account. Woodward & Guy is not a reseller of ad spend and does not mark up Google's charges. You will see every dollar Google charges, in real time, on your card statement. Our management fee (Section 10) is invoiced separately by Woodward & Guy and is the only payment that flows to us.

Access

- **You (Lyle Voorhees)** have Admin access to the account and retain full control regardless of our relationship.
- **Woodward & Guy** operates the account day to day via our Manager Account. You are not required to log in at any point.

4. Campaign Strategy

Our opening strategy concentrates budget on high-intent local search and mobile call ads — the two ad formats that consistently perform best for trade services in the Harrisburg metro.

Search campaigns

We target customers who are actively searching for a tree service today: queries such as "tree removal Harrisburg PA," "emergency tree service," "stump grinding near me," and "tree service Mechanicsburg," across all twelve service-area variations. Each ad drives to the relevant landing page already built on your website.

Call-only ads

Mobile-only ads that, when tapped, place a call directly to your business. These are particularly effective for emergency tree service queries, where the customer's goal is to reach a human immediately rather than research options.

Ad extensions

Call extension (phone number shown directly in the ad), sitelinks to Services / Areas / About / Contact, and callouts highlighting Licensed & Insured, Free Estimates, 24/7 Emergency Service, and Local & Family Owned.

Geographic targeting

Harrisburg plus a thirty-mile radius, or — if you prefer — specifically the twelve service areas you currently list on the website: Mechanicsburg, Camp Hill, Carlisle, Enola, Hershey, Lemoyne, New Cumberland, Middletown, Colonial Park, Hummelstown, and Steelton, with Harrisburg as the anchor.

5. What We Need From You

To launch, we need the following items. This list is intentionally short.

1. **A credit card for Google Ads billing.** We will walk you through adding the card on a short call or screen-share. The card is placed on your account directly; Google charges you, not us.
2. **Five to ten photographs of your crew and work.** Before/after shots, stump grinds, trucks, and team on-site consistently outperform stock photography in ads. If you do not have images readily available, we will use professional imagery.
3. **Confirmation of your service areas.** The twelve currently listed: Harrisburg, Mechanicsburg, Camp Hill, Carlisle, Enola, Hershey, Lemoyne, New Cumberland, Middletown, Colonial Park, Hummelstown, and Steelton. Please confirm any to add, remove, or prioritize.
4. **Your phone answering policy.** Who answers the main business line, what are your business hours, how are after-hours calls handled, and would you like call-only ads that drive calls rather than form submissions?
5. **Brand voice notes (optional).** Anything we should avoid saying, certifications to highlight, or phrases you prefer. In the absence of specific preferences, we will use our judgment.

6. Recommended Starting Budget

We recommend starting with a Google Ads media budget of **\$1,000 to \$2,500 per month**. That range produces enough conversion data within the first thirty days to judge performance honestly and begin optimizing. Lower budgets are workable but produce data slowly; higher budgets are appropriate after the first ninety days once performance is known.

As an order-of-magnitude estimate at the recommended spend, we expect 500 to 1,000 clicks per month, 15 to 40 leads per month (form submissions and phone calls combined), and a cost per lead in the range of \$35 to \$65, subject to competition, seasonality, and quality score. These figures are directional, not guaranteed.

Ad spend and management fees are two separate invoices. Google charges your card directly for ad spend. Woodward & Guy invoices you separately for management. See Section 10 for the full fee structure.

7. Timeline

The following milestones assume this proposal is signed and billing information is provided on the kickoff call. Calendar dates will be confirmed at that time.

Proposal signed	Day 0
Kickoff call and billing activation	Within 3 business days
Campaigns live	5 business days after kickoff
First performance review call	14 days after launch
Month-one performance report	30 days after launch
First quarterly strategy review	90 days after launch

8. Reporting

You are not required to log into Google Ads to know how the program is performing.

- **Monthly performance report** covering ad spend versus budget, clicks and impressions, click-through rate, conversions (form submissions and phone calls), cost per conversion, top-performing keywords and ads, and a plain-English narrative describing what we changed and why.
- **On-demand review.** At any time, a phone call or email to us will produce a same-week walk-through of current performance.
- **Quarterly strategy review** — a deeper review of the previous ninety days with recommendations for the next ninety.

Any material anomaly — a spend spike, a campaign underperforming, a tracking failure — is surfaced to you immediately rather than deferred to the monthly report.

9. Ownership, Transparency, and Exit

- You own the Google Ads account, all campaign data, conversion history, and creative — permanently, regardless of the status of this engagement.
- Our Manager Account access is revocable at any time at your sole discretion, without penalty or notice period.
- There are no hidden fees, no markups on Google's charges, and no kickbacks. The management fee in Section 10 is the only money that flows to Woodward & Guy from this engagement.
- If the relationship ends, we will transfer Manager Account access to your next agency or to yourself at no charge.

10. Fees and Investment

Three tiers are offered. All tiers include the same foundational work — proper setup, conversion tracking, monthly reporting, and ongoing optimization. Tiers differ in campaign complexity, optimization cadence, and level of strategic involvement. The **Growth** tier is our recommendation for this engagement.

		★ RECOMMENDED	
	Entry	Growth	Premium
Target monthly ad spend	\$500 – \$1,000	\$1,000 – \$2,500	\$2,500 – \$5,000
One-time setup fee	\$500	\$750	\$1,000
Monthly management fee	\$500 flat	\$750 flat	\$500 base + 10% of ad spend
Campaign types	1 search campaign	Search and call-only	Search, call-only, and Performance Max
Optimization cadence	Bi-weekly	Weekly	Weekly with rapid response
Reporting	Monthly	Monthly plus mid-month check-in	Monthly plus quarterly strategy call
Negative keyword management	●	●	●
Landing page conversion review	—	●	●
Landing page A/B testing	—	—	●
Competitor monitoring	—	Occasional	Ongoing

At the Growth tier and the recommended media budget, the combined monthly cost (management plus ad spend) is approximately \$1,750 to \$3,250. Entry is approximately \$1,000 to \$1,500 per month combined. Premium is approximately \$3,000 to \$5,500 per month combined, calculated as \$500 plus ten percent of ad spend plus the ad spend itself.

Setup-fee waiver

We will waive the one-time setup fee entirely at any tier in exchange for a ninety-day initial commitment. After the initial ninety days the engagement moves to month-to-month with thirty days' written notice to pause, switch tiers, or end. The ninety-day horizon is our honest judgment of how long it takes Google's algorithm to optimize meaningfully and for trend direction to become legible — we ask for that window so we can be accountable to the full learning cycle, rather than a partial snapshot.

Contract summary

- Month-to-month after the initial ninety days, or from day one if you prefer to pay the setup fee rather than commit.
- Thirty days' written notice to end, pause, or change tiers.
- No penalty for downgrading or pausing. You retain the account and all history in every scenario.
- Ad spend is billed by Google directly to your card. No markup.

Our recommendation

Begin at the Growth tier. Approximately \$1,500 per month of media is the floor at which meaningful conversion data accrues within the first thirty days, and \$750 per month of management keeps us optimizing weekly rather than fortnightly. Entry is viable if you prefer to start smaller; however, \$500 to \$1,000 of media is tight coverage for a twelve-area territory and delays clear signal. If traction is strong at sixty to ninety days, we can discuss a move to Premium to expand into Performance Max and additional campaign types.

11. Next Steps

1. Review this proposal at your convenience and respond with questions, requested changes, or acceptance.
2. Schedule a thirty-minute kickoff call on which we will walk through billing activation via screen-share, address the items in Section 5, and confirm tier and media budget.
3. Phase 1 work begins immediately after the kickoff call; campaigns are live within three to five business days.

12. Agreement

Signed acceptance below confirms the proposal as written, including the ownership structure, direct-billing arrangement, tier selection, and scope of work.

SELECTED TIER

☐ Entry ☐ Growth ☐ Premium

Monthly ad spend budget: \$ _____
